

Food Safety program

On the Occasion Of World Food Day

Date :- 16/10/2018

Many events are organized on and around World Food Day. On and around October 16, a wide-ranging program is organized at the FAO's headquarters in Rome, Italy. The program is aimed at leaders of political and non-political organizations at all levels and at increasing press attention on topical issues around food supply. Other UN organizations and universities around the world organize symposia, conferences, workshops and presentations of particular issues around food production, distribution and security.

Across the globe, many different events are organized to raise awareness of problems in food supply and distribution and to raise money to support projects to aid in the cultivation of food plants and the distribution of food. The projects aim to help farmers be more productive and improve both local communities' access to food and farmers' cash income. Fundraising events include sponsored sports events, charity auctions, concerts, and marches.

The FAO aims to raise levels of nutrition across the globe, improve agricultural productivity at all levels, enhance the lives of rural populations and contribute to the growth of the world economy. It also provides assistance to countries changing their agricultural policy, to aid regions out of famine situations, to help implement appropriate technology and facilitate a neutral environment to discuss issues around food production.

The B.Voc. College Food Processing, Preservation and Storage and Web Printing Technology courses jointly celebrated WORLD FOOD DAY on 16 October 2018 in Maharashtra Mahavidyalaya, Nilanga. On this occasion Dr. Hemant Patil (Associate Dean and Principal, V.D. College of Biotechnology, Latur) was the Chief Guest and Chairperson was the Dr. V.L. Yerande, Principal, M.M. Nilanga.

Dr. Hemant Patil sir address applauded the management and staff for organizing such a meaningful programme. He explained the importance of World Food Day which was came into existence in the year 1980 with a theme to elevate hunger problem. He also said that the food production growth during the year 1951 is 50 million tons and now it has been raised up to 285 million tons. Indian stands No. 1 position in the production of milk, jute and rice and No.2 position in sugar, wheat etc. While economy collapses, the agriculture production also reduces. 30%

of the population is going hungry due to insufficient supply of food. He urged the students to learn with dedication and work towards a zero hunger world.

Principal Rev. Dr V.L. Yerande congratulated the B. Voc. departments for organizing such a wonderful programme. Due to the inventions of the scientists, the food production growth rate has been raised. But still there is 30% of the population is surviving without food. Many places food is wasted and doesn't reach the needy. We could make it possible to reach food to the needy and eliminate hunger, he added. He also urged the students to become entrepreneurs and join hands for this great movement. Food Industry entrepreneurship and contributions of the food industry towards zero hunger of the world”

Prof. Mete B.S. welcomed the gathering. Prof. Pawar P.G. introduced the guests. Prof. Kakade S.D. proposed the vote of thanks.

On the occasion of World Food Day the students of B.Voc. Food Processing, Preservation and Storage and Web Printing Technology visited to Nilanga Civil Hospital for donating fruits to the attendants of the patients who are hospitalized there. The students also did 'Kar Seva' by serving fruits to the people and ensured that there

was no food wastage.
