# ACKNOWLEDGEMENT

We hereby take this opportunity to acknowledge with pleasure and Express our deep sense of gratitude towards our guide Prof. Patil for his unfailing inspiration, invaluable guidance and constant encouragement during the course of present endeavor and for providing required facility for this project.

We are also highly indebted to Prof. Madrse and for their support and encouragement and timely help at various stages of the project work.

We wish to take this opportunity to convey our profound gratitude to our.

Parents whose blessings and direct/indirect involvement has made completion of this project easier.

We would like to thank our friends and our department staff for their involvement during this project.

Finally, thanks to all those who have directly or indirectly helped us during this project work.

# 1. Abstract-

The Residence Management System project endeavors to create a sophisticated software solution tailored specifically for the needs of hotels and resorts. Its primary goal is to streamline operations and enhance guest experiences by centralizing tasks related to reservations, guest services, housekeeping, billing, and administration. Through automation and optimization
