Acting principal Dr. Ajit Muljekar said, "Our thinking process should not be one-sided as there are many aspects of life. Education is essential for development of thinking. In fact, imagination is greater than knowledge, and high quality research and knowledge is created from imagination. The amount of data available in today's information technology era is immense. So, don't get confused, find what is useful for us, find what is true and live in an enlightened society. We should learn to think through education. Besides, increasing creative innovation and understanding power, we must give impor-

...tance to research," Dr. Ajit Muljekar said. He was delivering his keynote address at a seminar on 'New Education Policy-2020' held at Sushiladevi Deshmukh Senior College, here on Tuesday. Overview of NEP 2020

Education is the preeminent instrument that can bring progressive changes in society, and the National Education Policy 2020 will bring significant transformations in the education field. India will have the highest population of young people in the world over the next decade, and the comprehensive attempt to provide high-quality educational opportunities to all citizens will ensure our country's progressive and prosperous future. National Education Policy 2020 envisions an education system rooted in Indian ethos that contributes diversity in transforming India (Bharat) sustainably into an equitable and vibrant knowledge society by providing high-quality education to all, thereby making India a global knowledge superpower. The Policy envisages that the curriculum and pedagogy of our institutions must develop among the students a deep sense of respect towards the foundational Dravid and Constitutional values, building nation's identity, and awareness on awareness of one's roles and responsibilities in a changing world. In order to convert the education policy into an implementable framework for the higher education institutions' a workshop is being organized (prior meaningful consultation) in which the Employer Academics would deliberate on the way forward to the implementation of NEP 2020. This national workshop attempts to share and discuss the applicability and implementation of NEP 2020 effectively in educational institutions across India.

Objectives

- To explore to generate a new system that is associated with 21st-century education while building upon India's traditions and value systems.
- To explore opportunities for developing a multidisciplinary education system in the NEP 2020.
- To progress towards taking into the various facets of the NEP 2020 (research, faculty enhancement, internationalization, technology, online education, vocational, professional education etc).
- To develop understanding among participants about access, equity, quality and inclusion as the underly key principles of the policy.
