Research Promotion Policy

Preamble:

We, the researchers of Maharashtra Mahavidyalaya, Nilanga solemnly resolve to undertake research as a national responsibility to remove research gaps to make society better.

Vision:

Instrumenting research as a tool for social change

Objectives:

Maharashtra Mahavidyalaya Nilanga is committed to build its strengths to create and maintain a healthy research environment which will:

- To promote research and innovation with contemporary relevance and useful for the society and ultimately for nation-building.
- To encourage and promote the research activities.
- To enhance existing research areas and develop expertise in emerging fields.
- To encourage and facilitate the inter-disciplinary and multi-disciplinary research.
- To develop collaborations and research partnerships with academic and research institutes in India.
- To develop required research infrastructure and to provide research framework and guidelines to faculty, research scholars and students.
- To ensure integrity, quality and code of ethics in research
- To inspire socially useful research.

Strategies

In order to strengthen the research culture in the college, following activities are to be planned:

- To promote research by the teachers, Maharashtra Mahavidyalaya Nilanga has a policy vision to support them with financial assistance for undertaking Minor Research Projects through Institution funds participating in conferences, seminars and workshops etc. and toward membership fees of the Professional Bodies in their respective subjects.
- Involvement of maximum students in research activities
- To apply for funding support for our research activities to various funding agencies.
- Organization of workshops, interactive sessions and hands-on-training programs for teachers and students.
- Establishment of a multidisciplinary research center.
- Encouraging faculty and students to attend national/international conferences/symposia.
- Taking initiatives to organize of national/international conferences/symposia/workshops
- Development of linkages and collaborations with academia and industries.
- Encouragement for maximizing research publication in UGC CARE listed journals
- To emphasize on the collaborative research.

Research to Pursue Doctoral Degree:

- All the faculties try to attain highest academic degree of research i.e. Ph.D. . Attempt should be made by the able faculties to work as the Research Supervisor and promote research to pursue Doctoral Degree.

Anti-Plagiarism Policy:

- Every researcher should practice good academic research by keeping oneself away from any kind of plagiarism. Research promotion Committee should create awareness regarding the same.

Publications:

- Every researcher should try to maximize the number of publication in UGC CARE listed journals or with reputed book publications. Focus should be given on both the quantity and quality of research.

Patents and Consultancy:

Senior researchers and research supervisors should focus on registration their works for getting patents and provide consultancy of their knowledge.
