**Brief Report:**

Maharashtra Mahavidyalaya Campus Film Society organized the screening of the short film Happy Anniversary for its members on 18th of August 2018 in Hall No. 22. Around 70 students attended the screening and participated in the discussion. Happy Anniversary is one of the renowned short films. It deals with the cinematic technique of expectation and disappointment. The film explored the impediment created by the facility itself. It focuses on how sometimes the facilities created by mankind become an inconvenience. The script of the film runs like: A woman is preparing a romantic dinner for two for her and her husband to celebrate their wedding anniversary. Her husband is out running a series of errands, most of his stops to pick up anniversary gifts for his wife. But the anti-anniversary Gods seem to be working against him as Paris traffic and other problems at each stop seem to be holding him up from getting in and out and to home on time for dinner. Meanwhile, his wife has no idea what has happened to her husband. Will it still be a happy anniversary by the time he makes it home? This is an interesting question to seek an answer for in the short film. After the screening of the short film, Dr DS Chaudhari introduced the key

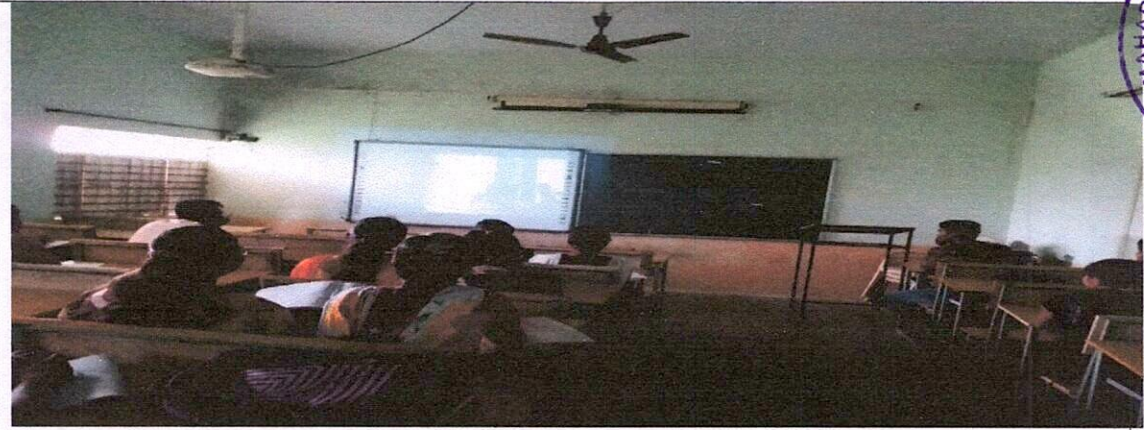

elements in the film related to the technical aspects as well as about the social and historical messages entailed in it. Dr. D. S. Choudhari invited a discussion on the short film. The students commented upon the funny side of life as depicted in the film. The students shared positive feedback on the activity.
