(Environmentakl Project Work Book)

विद्यार्थ्यांचे नांव Mane Sonali Balaji

वर्ग B.Sc T.Y. तुकडी GBZ क्रमांक _____

प्रकल्प कार्याचे शिर्षक National Parks and

their significance for Environment

प्रकल्प स्वरूप : वैयक्तीक / गटामध्ये :

१) _____

२) _____

३) _____

प्रकल्प मार्गदर्शकाचे नाव : R.S. Chaudhari mam

प्रकल्प मार्गदर्शकाचे नांव : V.A. Reddy sir.

National Parks

Introduction —

What is National Park?

A national park is an area set aside by a national government for the preservation of the natural environment. A national park may be set aside for public recreation and enjoyment or for its historical or scientific interest while keeping most landscape and their accompanying plants & animals in their natural state.

A national park is a large area of land which is protected by the government because of its natural beauty, plants, or animals and which the public can usually visit.

A large area of beautiful land that is protected by the government so that the public can enjoy it.

Characteristics of National Park

1. Reserve area of land, owned by the government
2. Area is protected from human exploitation, industrialization & pollution
3. No. cutting, grazing allowed, outside species allowed.
4. It came under the category called "Protected Areas". The Protected Areas are declared under wildlife (Protection) Act, 1972.
5. Conservation of 'wild nature' for posterity & as a symbol of national pride
6. International Union for Conservation of Nature (IUCN) and its World Commission on Protected Areas, has defined its categories II type of protected areas.

Significance of National Parks

1. They protect wildlife and their habitats from human impact and destruction.
2. They provide animals a safe space to survive and reproduce.
3. They protect places of natural beauty and are home to several endemic species.
4. They also protect the places, which are essential to Aboriginal people.
5. The main objective of places like National Parks is the conservation of biodiversity.
6. These Parks comprise many kinds of plants that help the environment by providing clean water and fresh air.
