Introduction :-

Stress is a state of mind that reflects certain reaction in the human body & its experienced by a sense of anxiety tension & depression and is caused by such demands of the environmental or internal forces that cannot be met by the resources available or mental to the person. Stress is anything that changes our physically emotional behaviour or mental state. In today's changing & competitive work environment stress level is increasing both in the workers as well as the managers. In most cases stress leads to reduce efficiency of an employee and which in turn levels of an employee. Some individual will not experience same stress which motivate them.

Profile of Indian Banking Sector :-

There are twenty seven nationalised banks, nineteen private sector banks, thirty two foreign banks, various co-operative banks & regional rural banks operating in India. The service sector which reproduces for around 60% of country's gross domestic product (GDP) has earned as one of the largest & fastest growing sectors not only in country but also in the landscape the country banking industry would be world third largest in asset size by 2025 as per a project report by Boston Consulting Group. The last decade witnessed of rapid increase in transaction. Through ATM as well as Internet and Mobile Banking. The country's banking industry experience for greater transformation.
